

GRANT WRITING ★★★★★ BOOT CAMP

A 3-DAY EVENT BY RESOURCE ASSOCIATES, INC.

TEN HUT!!

Resource Associates' 3-day Grant Writing Boot Camp is a perfect (and affordable) training option for all "cadets" needing grant resources for their organizations or who are ready to make grant writing their career. This training is fun and engaging, it is hands-on, and it is truly a once-in-a-lifetime opportunity to gain marketable and valuable skills. Our Boot Camp trainers are not only fun and dynamic presenters, but they are truly some of the best grant writers in the country who are ready to share their secrets with you. Every day is jam packed full of challenging skill-building exercises that combine instruction and hands-on practice to take you step-by-step through all the stages of writing an award winning proposal.

There is no other training in the country that will teach you Resource Associates' approach to proposal writing.

Our professional grant writers have been developing award winning grants for over twelve years. Our award rates are six-fold the rate of other professionals due to the fact that we use specific methodologies for identifying grants that have the highest probability of awards and write grants that align with both the needs of the funder and of our clients. Boot Camp will show you how to use these successful strategies in your own grant writing endeavors.

The best part of the training comes after your completion of Boot Camp. For the 6 months following the training, we will not only provide you with a technical review of a grant proposal, but you will also receive automated grant alerts of state, foundation, and federal funding opportunities that are profiled to the needs of your agency!
